Art Unit: 1647

DETAILED ACTION

1. The preliminary amendments of 10/28/2008 have been entered in full. Claims 1-21 are cancelled. Claims 22-38 are under consideration.

Election/Restrictions

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 22-37, drawn to a composition comprising a biodegradable gel-based matrix, at least one active agent, and stem cells able to differentiate into cardiac tissue, a method of making and using said composition.

Group II, claim(s) 38, drawn to embryonic stem cells transduced with a Lentiviral vector.

3. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:
4. Group I recites the special technical features, biodegradable gel-based matrix and at least one active agent, which is not required by the product of Group II. Group I represents the first recited product (a composition) and the first recited methods of making and using said product. Group II is drawn to a different product, embryonic stem cells, not the composition of Group I.
5. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be

Art Unit: 1647

traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

6. The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
